#### Job Summary:

We are seeking an experienced Appian Lead to join our team. The ideal candidate will have extensive experience in analysis, design, development, and implementation of enterprise applications using Appian BPM. This role requires strong technical skills in Java/J2EE, web services, and cloud technologies, along with excellent communication and analytical abilities.

## Job Responsibilities

- Lead the design, development, and implementation of Appian-based applications.
- Analyze business requirements and translate them into technical solutions.
- Develop SAIL interfaces, process models, rules, constants, and other Appian components.
- Integrate Appian applications with other systems using web services and APIs.
- Create and manage custom data types, data stores, and records.
- Ensure adherence to Appian best practices in process modeling and application development.
- Prepare design documents and technical specifications.
- Implement and manage application deployment across various environments (TEST, PRE-PROD, PROD).
- Provide technical guidance and mentorship to junior developers.
- Collaborate with cross-functional teams to ensure seamless project delivery.
- Troubleshoot and resolve technical issues in a timely manner.

## Requirement and Qualification

- Experience Required: 6+ years in IT, 4+ years in Appian BPM
- Proficient in Appian BPM, including SAIL forms, dashboards, and reports.
- Strong experience in Java/J2EE, Spring Boot, and microservices.
- Familiarity with web services (SOAP/REST) and integration tools like Apigee.
- Knowledge of database management systems, particularly SQL.
- Experience with development tools such as Eclipse, NetBeans, IntelliJ, and PL/SQL.
- Strong understanding of software development methodologies (SDLC, Agile).
- Excellent problem-solving skills and attention to detail.
- Strong communication and interpersonal skills.

## Preferred Qualifications:

- Experience in financial services or banking industry.
- Knowledge of additional frameworks like Struts, Hibernate, and AngularJS.
- Experience with reporting tools like iReport Designer and Eclipse Birt.
- Familiarity with DevOps tools like Maven, Gradle, and Log4J.

C5i is proud to be an equal opportunity employer. We are committed to equal employment opportunity regardless of race, color, religion, sex, sexual orientation, age, marital status, disability, gender identity, etc. If you have a disability or special need that requires accommodation, please keep us informed about the same at the hiring stages for us to factor necessary accommodations.
