Job Responsibilities:

We are looking for a Full Stack Developer to produce scalable solutions. You'll be responsible for the full software development life cycle, from conception to deployment. As a Full Stack Developer, you should be comfortable around both front-end and back-end coding languages, development frameworks and third-party libraries.

- Proven experience as a Full Stack Developer or similar role
- Proficient with multiple front-end languages and libraries such as HTML5, CSS3, JavaScript, XML, jQuery
- Proficient with multiple back-end languages such as C#, Java, Python and JavaScript frameworks such as Angular, React, Node.js
- Familiarity with databases (e.g. MySQL, MongoDB, Postgres), Web servers (e.g. Apache, Tomcat, httpd) and UI/UX design
- Proficient with implementing Web Services along with Swagger integration for quick user testing.
- Proficient with REST API and MVC framework
- Proficient with code versioning tools including GIT, Bit Bucket and SVN.
- Proficient knowledge on procedural and complex database queries
- Familiar with project management methodologies like SCRUM and Agile.
- Good problem-solving and decision-making skills

Requirements & Qualifications:

- Participating in the design and creation of scalable solution
- Build the front-end of applications through appealing visual design
- Design client-side and server-side architecture
- Conducting analysis of website and application requirements.
- Managing the working experience of Webservices (Restful and Soap).
- Problem solving capabilities and ability to respond positively to varied situations
- Build efficient, testable, and reusable modules.
- Writing clean, functional code on the front-end and back-end
- Testing and fixing bugs or other coding issues
- Solve complex performance problems and architectural challenges
- Integration of data storage solutions.
- Updating and altering application features to enhance performance.
- Developing back-end portals with an optimized database
- Build features and applications with a mobile responsive design
- Write technical documentation
