## Job Responsibilities

We are seeking an experienced MicroStrategy Developer to join our team. The ideal candidate should have a strong background in designing, developing, and maintaining MicroStrategy analytics dashboards and reports. You will work independently to develop solutions and support the application, as well as collaborate with business users to understand their reporting and analytical needs.

Key Responsibilities:

- **Design and Development:** Create end-to-end MicroStrategy analytics dashboards and reports, ensuring they meet the business requirements.
- **Report Support:** Provide ongoing support for existing MicroStrategy reports and applications, ensuring they function optimally.
- **System Improvement Recommendations:** Assess and recommend improvements for MicroStrategy applications and systems.

- **Project Design & Development:** Develop dynamic dashboards, reports, and project designs, including the creation of facts, attributes, hierarchies, and aggregations. Integrate these solutions into the portal.
- **Project Management:** Participate in project planning, estimation, and defining approaches to deliver solutions efficiently.
- **Schema & Object Development:** Have an in-depth understanding of MicroStrategy schema definition, design, implementation, and maintenance, as well as developing application objects.
- **Business Interaction:** Work closely with business users to understand their reporting and analytical requirements. Communicate effectively to gather and document business requirements and translate them into technical specifications.

### **Skills and Experience:**

- 5-10 years of hands-on experience with MicroStrategy development.
- Strong ability to work independently and take ownership of project tasks.
- Proven experience in designing and developing MicroStrategy dynamic dashboards, report development, and project design.
- In-depth knowledge of MicroStrategy's schema design, object development, and maintenance.
- Familiarity with project planning, estimating, and approach definition for MicroStrategy development.
- Strong understanding of the business users' needs and the ability to translate those needs into actionable reporting solutions.
- Excellent communication skills to engage with business users and technical teams.

**C5i** is proud to be an equal opportunity employer. We are committed to equal employment opportunity regardless of race, color, religion, sex, sexual orientation, age, marital status, disability, gender identity, etc. If you have a disability or special need that requires accommodation, please keep us informed about the same at the hiring stages for us to factor necessary accommodations.
